MTP3000 SERIES ACCESSORIES
SAFER, TOUGHER, EASIER TO USE

MOTOROLA'S NEW TETRA RADIO ACCESSORY CATALOGUE

MTP3000 SERIES ACCESSORIES
EXCEPTIONAL PERFORMANCE. EVERYDAY TOUGHNESS.

Whether chasing a suspect down a busy street or calling maintenance to a bustling metro station, you depend on communications that perform in demanding environments. That's why it's critical to choose the only accessories designed, tested and certified to work optimally with Motorola TETRA radios. Our comprehensive portfolio of MTP3000 accessories delivers on that promise – with improved connectors and new enhancements for exceptional audio.

YOUR LIFELINE WHEN TIME IS CRITICAL

EXCEPTIONAL AUDIO EVERY DAY

The audio profiles on our MTP3000 accessories make hearing clearly almost effortless. They ensure you get the best performance possible by adapting to how the accessory is worn – in the ear, on a lapel and more. Simply plug in the accessory and select from the menu to experience exceptional audio. The MTP3200, MTP3250, MTP3500 and MTP3550 deliver Bluetooth connectivity, which increases the user's operational flexibility and productivity in the field by offering wireless accessories. When it comes to high performing accessories at an affordable price, count on Mag One, the only value-line accessories tested and certified by Motorola.

STRONGER, SECURE CONNECTIONS

From the pipeline to the fire line, our MTP3000 accessories are so robust and reliable, they'll outlast your most action packed days. A newly designed, durable, compact, 8-pin connector ensures the accessory stays attached – whether you're jumping over barriers or climbing up ladders. With its tightly sealed radio interface and IP67 rating, your accessory interface can be exposed to water without losing the connection. Yet the super quick connector which takes less than 2 seconds to connect/disconnect is so slim, it won't add bulk to the radio.

TESTED TOUGH AND PROVEN TOUGH

Power your radio and accessories with the only batteries Proven Tough. Time after time, in lab test after test – for Drop, Vibration and ESD (Electrostatic Discharge) – Motorola batteries withstand shocks, knocks, drops and shakes, and outperform the leading brands. If your radio gets banged on a ride, rattled by heavy equipment or shocked by static electricity, you can depend on our batteries to keep working.

Save energy and money by using your existing TETRA chargers to power up your MTP3000 series radios and accessories. Simply mix and match in your existing 6-unit chargers.
