IMPRES™ ACCESSORIES ARE AUTOMATIC

Plug in our IMPRES accessories – such as the remote speaker microphone (RSM) – and your radio identifies it and automatically loads the correct profile to optimise audio performance. What's more, our IMPRES large-speaker RSMs match the high-powered speaker on your radio for even better communications in high-noise environments – essential when on noisy, hectic incident scenes.

REMOTE SPEAKER MICROPHONES

YOU NEED THE BEST POSSIBLE AUDIO QUALITY SO YOUR COMMUNICATIONS REMAIN LOUD AND CLEAR. WITH THESE REMOTE SPEAKER MICROPHONES YOU CAN STAY SAFE IN THE TOUGHEST SITUATIONS.

WHICH MICROPHONE IS RIGHT FOR ME?

If you work outdoors in demanding weather, a Windporting microphone is right for you. It reduces the effect of wind and other sounds whenever you use the microphone. It also prevents water from clogging the microphone for clear transmissions.

TALKING IN A CROWD OR NEAR NOISY MACHINERY?

A noise-cancelling microphone reduces background sounds. To optimise its noise reduction capabilities, hold the microphone directly in front of your mouth, facing the source of the noise.
